Total carry-forward mills available:							<u>0.00</u>

**NOTE: 1998-1999 is the first base year under the provisions of Section 15-10-420, MCA. Each subsequent fiscal year becomes the base year for the next fiscal year. This section also allows an entity to carry forward any levies which could have been levied but were not to future periods.

The current year levies are _____ are not _____ at the maximum levels authorized under Section 15-10-420, MCA. If not at maximum levels the difference will be shown in the carry-forward column. The difference between the amount authorized (column i) and the amount actually levied (column m) will be completed by a formula.

If you have levies that are voted/judgement/permissive levies please list below:

HUDGET MESSAGE

PURPOSE

The town or townships is committed to responsible fiscal management through integrity, prudent stewardship of public assets, planning, accountability and full disclosure. The broad purpose of these Fiscal Policies is to enable the Town to achieve and maintain a long-term stable and positive financial condition. These policies are adopted by the Town Council as the basic framework for overall financial management of Town of Stanawisite, to guide day-to-day and long-range fiscal planning and decision making, and to achieve the following general financial

1. Provide a financial base that shall sustain a sufficient level of services to maintain the general health, safety and welfare of the Town.
2. Deliver cost effective and efficient services to citizens.
3. Provide and maintain essential public facilities and capital equipment.
4. Protect and enhance the Town's financial position to assure taxpayers and the financial community that the Town is well-managed and financially sound.
5. Provide the financial stability needed to weather economic downturns, adjust to changes in the service requirements of the community and respond to other changes as they affect the Town's residents.
6. Adhere to the standards of financial management and reporting practices as set by the Governmental Accounting Standards Board and other professional accounting standards.
7. Fully comply with finance-related local mandates, laws and resolutions.

To achieve these goals, the Town has fiscal policies covering the areas of revenue and expenditure management, operating and capital budgeting, accounting and financial reporting, debt management, and reserve management.

REVENUE POLICIES

The Town shall endeavor not to use temporary revenues to fund mainstream services or for budget balancing purposes.

1. User fees and charges shall be established for services provided that benefit specific individuals or organizations. User fees and charges shall be set at a level sufficient to recover full cost of service whenever practical to minimize subsidization by taxpayers. The Town Council shall systematically review user fees and charges to take into account the effects of additional service costs and inflation.
2. All potential grants shall be evaluated for matching requirements and ongoing resource requirements before acceptance. Grants may be rejected to avoid commitments beyond available or anticipated funding.

The Town shall not respond to long-term revenue shortfalls with deficit financing and borrowing to support ongoing operations. Expenses shall be reduced to conform to the long-term revenue forecasts, and/or revenue increases shall be considered.

4. Department heads and elected officials shall estimate their department/office revenues realistically.
5. conservatively and prudently.

OPERATING BUDGET POLICIES

An annual budget shall be prepared with the participation of all department heads and elected officials that shall implement the Town's fiscal policies.

1. All budgetary procedures shall conform to existing state regulations. Montana budget law requires each local government to prepare a balanced budget per Montana Code Annotated (MCA) 7-6-402.
2. (1)(c)
3. Department goals and objectives shall be identified and incorporated into the budget process.

The Town Council shall adopt the budget at the department or program level based on individual line items to ensure expenditures are controlled in an effective manner.

4. The budget shall be prepared using a zero-based budgeting process. All expenses requested must be detailed and justified. Modified zero-based budgeting starts from a near "zero" base and every major expense within that department/office shall be analyzed for its needs and costs. Department budgets shall then be built around what is needed for the upcoming period regardless of whether the proposed budget is higher or lower than the previous one.
- 5.

All compensation planning shall include an analysis of total cost of compensation, consisting of proposed salary increases, health benefits, pension contributions, fringe benefits and other personnel costs.

- 6.
7. Quarterly reports comparing actual to budgeted expenditures shall be prepared by the Town Treasurer and presented to the Town Council. Significant budget to actual variances shall be investigated.

EXPENDITURE CONTROL POLICIES

Expenditures shall be controlled through appropriate internal controls and procedures as audited by the Town's external independent auditors.

1. Department heads and elected officials must ensure expenditures comply with the adopted budget.
2. Each department head and elected official shall be responsible for the administration of their department/office budget. This includes evaluating the goals and objectives presented during the budget process and monitoring their budget for compliance with spending limitations.
3. Department heads shall administer expenditure control at the line item level. Expenditures shall be posted to the appropriate line item.

Requests for budget amendments shall be made to the Town Council to change the budget by requesting a budget increase due to unanticipated expenditures using a budget amendment. All resolutions adjusting the budget shall be submitted to the Treasurer for appropriate document preparation then placed on the Town Council agenda for approval at a public hearing as required by MCA 7-6-402 (4).

5. All purchases of goods and services must comply with state laws and regulations.

The Town shall make every effort to control expenditures to ensure Town services and programs provided to its citizens and taxpayers are cost effective and efficient.

CAPITAL RESERVE POLICIES

To better understand this section, the definition of a capital item is an asset that the Town intends to hold and derive benefits from for a period of two or more years and has a cost of \$5,000 or more. Capital assets include land, buildings, machinery, equipment and major software expenditures.

Each department/office shall prepare a schedule of capital items utilized by that department/office along with an estimate of useful life of each item, date the item was purchased, and its acquisition cost. These schedules shall be incorporated into a Capital Reserve program encompassing all Town facilities and shall be updated annually. The Capital Reserve program shall be incorporated into the Town's budget and long-range financial planning.

1. The Town shall maintain its capital assets at a level adequate to protect the Town's capital investment and to minimize future operating, maintenance and replacement costs. The Town recognizes that deferring maintenance often inordinately increases future capital costs thus placing an undue burden on future taxpayers. Therefore, the budget shall provide for adequate maintenance and the orderly replacement of capital items from current revenues when possible.
- 2.

The Town strives to maintain capital reserves sufficient to fund the acquisition of needed vehicles, machinery, equipment and major software items. The Town may utilize current funding for capital improvements if current revenues are available and when fund balances are adequate. The Town shall not incur debt to purchase capital items when doing so shall adversely affect the Town's financial position.

3. The Town shall have a capital plan for major repairs/replacement for its buildings.
4. When determining the use of debt financing for capital items, the following criteria shall be considered:
 - a. The project's useful life should equal or exceed the terms of the financing.
 - b. Financial resources are deemed sufficient and reliable to service the long-term debt.
 - c. Market conditions should present favorable interest rates for town financing.
 - d. The incurrence of debt shall not adversely affect the Town's financial position.

ACCOUNTING AND FINANCIAL REPORTING POLICIES

1. The Town shall comply with the following accounting and reporting standards:

Generally Accepted Accounting Principles (GAAP) developed by the Governmental Accounting Standards Board (GASB).

- a. Standards issued by the Comptroller General of the United States.
- b. Montana statutes relating to town finance, and
- c. U.S. Office of Management and Budget (OMB) Circular A-133.

A system of internal controls and procedures shall be maintained to guard against misappropriation of funds, safeguard public assets, promptly record financial transactions and comply with applicable laws and regulations. Public employees have a duty to promptly report violations.

2. In accordance with State law, an audit of the Town's financial statements (including an audit of qualifying federal grants) shall be conducted annually or biennially by an independent public accounting firm. The audit shall render an opinion as to whether the financial statements are presented fairly and in accordance with accepted standards, and shall disclose any detected material misstatements. Auditors shall also evaluate internal controls and assess the adequacy of utilized accounting principles and practices.
3. The Town shall prepare its financial statements and maintain its accounting and internal control systems in accordance with applicable standards with the goal of obtaining an unqualified opinion from its auditors.

DEBT MANAGEMENT POLICIES

The Town Treasurer oversees the ongoing management of all town debt. Debt includes general obligation bonds, revenue bonds, lease purchase obligations, promissory notes, equipment financing agreements and any other contractual arrangements that obligate the Town.

1. No debt shall be incurred for which the Town is not reasonably assured that a sufficient, specifically identified revenue source is available for repayment. The Town Treasurer shall prepare an analysis of the source of repayment and present for approval to the Town Council prior to incurrence of any debt.
2. The Town shall not use long-term debt to fund current operations, to balance the budget or to fund projects that can be funded from current resources.

The Town may utilize short-term debt, or interfund loans as permitted, to cover a temporary (less than one year) shortfall due to timing of cash flows that result from delays in receiving awarded grant proceeds or other identified revenues, emergencies (such as natural disasters), or incurrence of long-term debt.

4. When incurring long-term debt, the Town shall ensure that the debt is soundly financed by:

incurring debt only when necessary for capital improvements too costly to be financed from current available resources or capital reserve funds,

- a. financing that capital projects financed through long-term debt shall be financed for a period not to exceed the useful life of the project.
- b. Determining that the benefits of the project exceed the cost of financing including interest, and
- c. Analyzing the source of repayment and the impact of debt service on annual fund costs prior to incurrence of long-term debt.

Unless otherwise allowed by law, all general obligation bonds, lease purchase obligations, promissory notes, equipment financing agreements and any substantial or new contractual obligations shall be authorized by the Town Council.

6. The Town shall comply with all statutory debt limitations imposed by Montana laws and regulations (MCA 7-6-4101).
7. The Town shall comply with all bond covenants, anti-pledge, disclosure and other requirements specified by law.

OPERATING RESERVE POLICIES

The Town desires to maintain operating reserves to guard its citizens against service disruption in the event of unexpected temporary revenue shortfalls or unanticipated one-time expenditures. Operating reserves within the Town's operating funds have been accumulated to meet this purpose, and to provide stability and flexibility to respond to unexpected adversity and/or opportunities.

1. The Town's operating funds consist of all funds related to the overall daily operations of the Town.
2. The Town shall maintain sufficient operating reserves for the purposes of:

mitigating short-term volatility in revenues,

- a. Mitigating economic downturns.
- b. Sustaining Town services in the event of an emergency.
- c. Meeting operation cash flow requirements before the collection of property taxes, grant proceeds, contract awards and other operating revenues.

Mitigating the impact of unexpected claims or litigation settlements, and

- a. Meeting requirements for debt reserves when applicable.

The General Fund reserve shall not exceed the statutory limit of as defined by MCA 7-6-4034 (2) (b).

BUDGET PREPARATION INSTRUCTIONS

- 1 A budget message should be inserted after the table of contents page. The budget message should be prepared by the chief executive of the governmental unit and explain in general terms the fiscal experience of the city/town/county during the past year, its present financial status, and recommendations regarding fiscal impacts and policies for the forthcoming budget year.
 - 2 **General Fund -**
 - A. Detailed expenditure worksheets are provided for the General Fund. These worksheets allow for budgeting by activity and object. The worksheets should be summarized by activity and then entered in the Expenditure by Function and Activity sheets. These sheets should also contain the previous year's expenditure data for comparison purposes. The final budget expenditures from these pages should then be transferred to the appropriations column of the Tax Levy Requirements Schedule for computation of the mill levy.
 - B. Non-tax revenues are estimated and these totals should be placed on the Tax Levy Requirements Schedule under the non-tax revenue column. The non-tax detail worksheets should include the prior year's actual amounts.
 - 3 **Special Revenue Funds -** Expenditure summaries listing usual activities and revenue summaries listing usual sources have been provided for the most commonly found Special Revenue Funds. Any activities or sources not found should be added in the blank spaces provided. Several blank pages are also provided for adding any additional Special Revenue Funds. For each tax supported fund total expenditures and non-tax revenues should be transferred to the Tax Levy Requirements Schedule for mill levy computation. If you need additional special revenue pages click on the bottom tab and copy the page.
 - 4 Summaries are provided for all other fund types. These summaries are laid out to include the funds within each of these categories on one page. Local governments with more funds than can be accommodated on one page can right click on the tab at the bottom of the page and click on move or copy to add another page, check the copy box and choose where to add the page or make a photocopy of the page to be completed by hand as needed. Depending on the funding source, this information should be transferred to the Voted or Non-voted Tax Levy Requirement Page (pages 53 or 54) or added to the Non-Levied Fund Page (page 55).
 - 5 A Levy Requirement page (pages 53 or 54) or Non-Levy Requirement Schedule (page 55) should be completed for every fund whether it has a mill levy or not. The method by which the items are combined is shown by the equations at the top of the columns. Cash reserves are the amount which may be added to the budget of a tax supported fund to provide operating cash for expenditures made between July and November of the following fiscal year. Cash available is the cash balance in the fund on July 1 less any outstanding liabilities. Appropriations are the total budget from the Expenditure Summary. Non-tax revenues are the total amount estimated to accrue to a fund from all sources except property taxes. The non-tax revenue total for each fund comes from the Revenue Summary Pages.
 - 6 Final budget documents are to be submitted to the Department of Administration no later than October 1 or within 60 days from the receipt of the certified taxable valuations.
- * The Department of Administration reviews budget documents and reserves the right to decline acceptance of reports that are incomplete. The Budget Certification Page must be signed and dated. If using your computer-generated report please be sure it includes the equivalent information including the statistical pages, schedule of personnel levels, taxable valuation/mill levy history and the tax levy requirement schedules and the non-levied summary schedules (pages 53-55). **The report will not be accepted without these pages.**
