GENERAL REQUIREMENTS:

 5. Vicinity map of the area showing the location of the property in relation to surrounding land and zoning in the immediate area, water and wastewater mains, other utilities, and city streets;
 6. Planned modifications to the existing structure;
 7. Preliminary architectural drawings for new construction with elevations that include building heights;
 8. Anticipated changes in pedestrian, vehicle, and bicycle traffic, on street parking, noise, glare, and odor;

Review Process and Criteria

11-3-4 : **APPLICATION REVIEW:** The following completeness review is required for applications for conditional use permits:

A. The Community Development Department shall review the submitted information to determine whether the application contains all the information required by this chapter. The application is complete if all the information required is provided, thereby forming the basis for an informed decision on the application. The town shall give written notice to the applicant of the determination as to whether or not the application is complete.

B. If the town determines that information is missing from the application, the town will identify those elements in the notification. If the applicant fails to submit the missing information within thirty (30) days of the notice of deficiency, the town may deny approval of the application.

C. If the applicant corrects the deficiencies and resubmits the application within the time provided above; the town will notify the applicant whether the resubmitted application contains all the information required by this chapter.

D. After a complete application has been filed, the town shall investigate the facts bearing on the application to assure that the action on the application is consistent with the intent and purpose of the code, and then give its recommendation to the zoning board and town council.

11-3-5 : CONDITIONAL USE PERMIT REVIEW REQUIREMENTS:

A. A conditional use permit may be granted by the town council only upon a finding, warranted by the facts, circumstances, and evidence of record, that the following standards are met:

1. The proposed conditional use will not significantly increase risk to the public health, safety, or general welfare.
2. The proposed conditional use will not significantly reduce or impair the peaceful use of existing property or improvements in the vicinity and the zoning district in which the subject property is located.

B. In considering whether a proposed conditional use meets the requirements of the town's code, the council shall weigh and balance the following factors:

1. pedestrian, vehicular, and bicycle traffic;
2. on-street parking;
3. noise;
4. glare;
5. odor; and
6. type and size of structures and improvements and their relative locations on the subject property.

PROCESS:

The Zoning Board and the Town Council will hold any required public hearings, after the required legal notices have been given, to give the public an opportunity to be heard upon the matter.

The Zoning Board will make a recommendation to the Town Council who will approve, deny or conditionally approve the requested conditional use permit.
