Stevi Town Council;

I oppose the Burnt Fork Estates subdivision. I have been here in Stevensville since 1978. We have raised 3 children here in Stevensville. Stevensville itself has been one of the last best places in the State of Montana.

A person only needs to go 27 miles North to the "Zoo" to witness what uncontrolled human growth and progress brings with it. Crime, poverty, rude, aggressive driving and overall problems; financial and emotional behavior.

Most, if not all, of the residents of Stevensville live here because of the "laid back" "down home" environment.

MORE people equates to MORE stress and MORE problems. Our Town has lost a lot of Excellent Employees because of the leadership within; James Marble, Ed Sutherland, Jeff Hale and George Thomas. The direction this town

is going is one large wreck.
I want to make myself
very clear; that people that
want this ridiculous growth;
Burnt Fork Estates to bring
more people and more
problems should go back
to the "rats race" they
came from and leave our
nice little town of Stevi
alone. No more ridiculous
progress. Just say No!

Sincerely;

Dennis J Schutz
